 Play Store: <https://play.google.com/store/apps/details?id=com.app.tasbihpro>

PROFILE SUMMARY

A recent BS Information Technology graduate and Android Developer with hands-on industry experience building production mobile applications using **React Native and JavaScript**. Published **Tasbih Pro** on the Google Play Store, gaining practical experience across the full product lifecycle from UI/UX design to release and maintenance. Currently expanding into full-stack development with **HTML, CSS, JAVASCRIPT, PHP, and SQL**, alongside modular architecture practices. Comfortable working in product-driven teams, managing tasks collaboratively, and directly interacting with clients to gather requirements and deliver solutions. Seeking a challenging Android / cross-platform developer role where I can contribute to real-world products and continue growing technically.

PROFESSIONAL EXPERIENCE

Android Developer | VSI CADM in Systems Limited Pvt Ltd Lahore

Sehjpal Road Near DHA Phase-8 (Ex-Air Avenue) Lahore | March 16 2026 – July 11 2026 (4 months internship)

Responsibilities & Achievements:

- Developed **Tasbih Pro**, a feature-rich Islamic mobile application using **React Native**.
- Designed responsive and user-friendly UI components with modern React Native practices.
- Integrated **Prayer Times, Qibla Compass, Digital Tasbih Counter**, and **Quran Surah** features.
- Implemented local storage using **AsyncStorage** to support offline functionality and user preferences.
- Added **Push Notifications** for prayer reminders and important events.
- Optimized application performance, fixed bugs, and improved the overall user experience.
- Used **Git** for version control and collaborated within the development team while following industry coding standards.

Major Project During Internship

- **Tasbih Pro (Islamic Utility Application)**
 - Built with **React Native, JavaScript, AsyncStorage, React Navigation**.
 - Features include:
 - Digital Tasbih Counter
 - Prayer Time Notifications
 - Qibla Direction Compass
 - Quran Surahs with Audio
 - Offline Audio Support
 - Dark/Light Theme
 - Clean, responsive UI

SKILLS

1. **Languages:** JavaScript, PHP, Java (basic), Kotlin (basic), HTML5, CSS3, SQL
2. **Mobile Development:** React Native, Ionic, Capacitor, Android Studio, Jetpack Compose (familiar)
3. **Backend & Frameworks:** Laravel, PHP, REST APIs, Firebase (Authentication, Realtime DB, Storage)
4. **Databases:** MySQL / SQL, Firebase Realtime Database, AsyncStorage
5. **Architecture & Patterns:** Modular Architecture, Clean Architecture concepts, Dependency Injection, MVC
6. **Tools & Platforms:** Git, GitHub, VS Code, Android Studio, Google Play Console
7. **UI/UX:** Responsive layouts, Custom Animations, Material Design, JS Layouts
8. **AI / Productivity Tools:** ChatGPT, DeepSeek, GitHub Copilot, Google Gemini, Claude AI, Cursor AI
9. **Soft Skills: Team Collaboration,** Team Management, Client Dealing, Requirement Gathering, Product-Based Working, Problem Solving, Communication

Certifications

- **Diploma in Android Development**

Dynamic & Digital Institute of Information Technology Sahiwal

Duration: 6 months (Sep 2023 to Feb 2024)

Key Skills: Java, Kotlin, Node JS, Android Studio, UI/UX Design, API Integration, Firebase

EDUCATION:

Concordia College Sahiwal Affiliated with (BZU Multan)

Bachelor of Science in Information Technology 2021-2025

KEY PROJECTS

1) Desi Dawat

Desi Dawat is an offline app designed to bring the best of traditional Pakistani recipes and culinary experiences right to your fingertips. It offers a wide variety of authentic dishes from across the subcontinent, perfect for home cooks who want to explore, learn, and recreate classic Pakistani meals without needing an internet connection. With easy-to-follow recipes and organized categories, Desi Dawat makes cooking your favorite desi dishes simple and enjoyable, all while working offline.

Technologies & Features Used:

- All recipes and content are available offline, so you don't need an internet connection to browse or cook.
- Detailed, easy-to-follow instructions for each recipe in Urdu, with clear cooking steps and tips for better results.
- A comprehensive list of ingredients for each dish, helping you organize your shopping and prep easily.
- All Recipes written in Urdu language which is easy to understand

2) Windy

Windy is a powerful and easy-to-use weather forecasting app that provides accurate and real-time weather updates, forecasts, and detailed reports. With a focus on wind patterns, air pressure, and other key atmospheric factors, Windy offers weather enthusiasts and outdoor adventurers a comprehensive view of current and future weather conditions. Stay informed and plan your day with precision, whether you're a traveler, a sports enthusiast, or simply someone who wants to stay ahead of the weather.

Technologies & Features Used:

- Get accurate, live weather updates for any location worldwide, including current temperature, humidity, wind speed, and more.
- Track wind patterns, wind speed, and wind direction with high precision, making it perfect for sailors, hikers, cyclists, and outdoor enthusiasts.

3) ECare

ECare is a modern medical app designed to simplify healthcare for patients and doctors. It helps users book doctor appointments, check medicine details, manage health records, and access essential medical information—all in one place. With ECare, healthcare becomes faster, easier, and more organized.

Technologies & Features Used:

- **Doctor Appointments:** Easily book and manage doctor visits.
- **Medicine Details:** Check uses, dosage info, and precautions for medicines.
- **Medical Records:** Store and access prescriptions and reports securely.
- **Nearby Hospitals:** Find hospitals and clinics around you.
- **Health Tips:** Read basic health and wellness articles.
- **Secure Data:** Your health information is protected and private.

CURRENT PROJECT

➤ SkoolLink

SkoolLink is an easy-to-use school management app designed to streamline the daily operations of schools, making communication and administrative tasks simple and efficient. Tailored for small to medium-sized schools, SkoolLink helps manage student records, schedules, grades, and attendance in one place.

Technologies & Features Used:

- **Student Management:** Easily store and access student profiles, including personal details, fees, and attendance
- **Teacher Management:** Easily store and access teacher profiles, including personal details, salary, and joining details.
- **Timetable Management:** Create class schedules, assembly and of time to help teachers stay organized.
